

Long drawn-out litigation impacts your time, resources, reputation and bottom line and takes you away from what you do best: running your business. Clients benefit from experts in litigation, from preparation and strategy to a swift and successful resolution. **Commercial & Civil Litigation** team at Salomon Lipschutz & Co. is your adviser.

As one of the most seasoned law firms in Israel, our Commercial Litigation department has been heavily involved in bet-the-company and high-stakes litigation for many decades, effectively representing companies in disputes that have widespread ramifications, not only for the client but the wider economy.

Landmark cases have been the cornerstone of our practice, with recent cases including the some of the most high-profile and sensitive cases in Israeli history – such as the Kishon River cases and the Mount Carmel Fire disaster, while we have won many ground-breaking decisions that have set precedents that led to changes in banking legislation as well as in other industries, notably blockchain, where we have secured precedential court verdicts in a unique and currently unregulated environment.

Our successful track record acting for parties before all levels of the Israeli court system, including the Supreme Court, the Labour Courts, the Administrative Courts and the Municipal Courts, as well as other judicial and quasi-judicial tribunals in Israel.

Our clients come from across the spectrum of Israeli business including leading banks, governmental and municipal entities, a variety of industrial and commercial entities, foreign clients, and individuals who rely on our vast experience and expertise in all areas of legal disputes and administrative proceedings.

We are widely acknowledged experts in disputes relating to banking and finance, commercial and business transactions, real estate, planning and construction laws and regulations, environmental law, public tenders, securities and corporate governance, partnerships, cooperative societies, employment and labour relations, torts and insurance, intellectual property, and public and administrative law.
