

In challenging and uncertain times, securing approval for your acquisitions, mergers or joint ventures can be critical to your long-term business objectives. Clients rightfully demand advisors with a deep understanding of the **Antitrust regulations** and knowledge of the practical workings of the Israel Competition Authority ("ICA"). Salomon Lipschütz & Co. is your adviser.

As one of the most seasoned law firms in the Israeli market, our Antitrust and Competition team specializes in guiding clients from the beginning of their intended transactions through the ever-changing regulatory minefield to the transaction's eventual competition. Striving for the highest levels of care and professionalism, we provide clients with clear and strategic advice with regards to the likelihood of approval by the ICA, closely examining the law relating to monopolies, and regularly updating on the potential outcome of any legal proceedings instituted by the ICA.

In addition to obtaining approval of any merger or transaction, we tap into our wealth of experience in creating tailor-made and comprehensive internal enforcement plans, helping clients to minimize risk, and if there are particular exemptions or exceptions that may apply to specific agreements.

Clients are also reassured by our strong track record before the ICA with respect to any criminal procedures, and our experience in hearings looking at the potential existence of a business cartel. Our long history of appearances before the Antitrust Tribunal and the Court for Business Appeals helps clients to understand and prepare for any civil proceedings in which antitrust issues may arise.
